Ultra+

B1F Building Paper –

Reinforced BS 1521 grade high specification bitumen bonded kraft paper laminate in a handy easy to use size.

Nominal Weight – 200 gsm
Roll Size – 1.25m x 50m

B1F

Installation Guidance

As these products have so many different uses, the installation will vary depending on the final use and would be down to the installer to ensure they are happy with all fixings.

Novia foil lap tapes can be used to ensure overlaps and edge details are sealed for a neater compliant final installation.

Please refer to the individual product datasheets for more information.

Always ensure all products are installed correctly using suitable tapes. For full details on individual products or for more construction membrane assistance, contact our sales team on 01622 678952 or visit us at
