

# NOVIA®

## Double-Sided Adhesive Tape

For use in conjunction with all Novia Breather Membranes

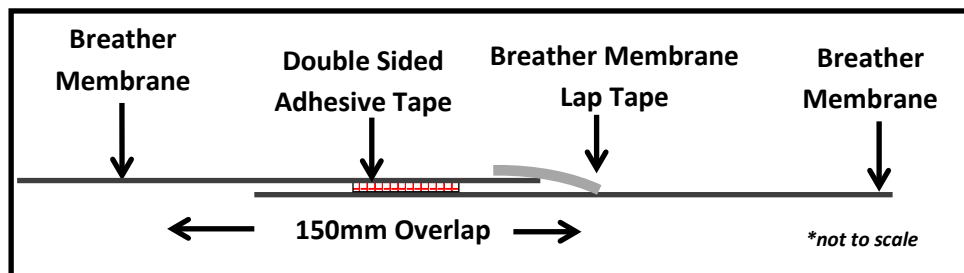

**Novia Double-Sided Adhesive Tape** is a double sided tape which bonds exceptionally well thanks to a special adhesive system.

It is suitable for use with Novia Breather Membranes, and should be used to seal all membrane overlaps to protect against external environmental conditions.

To fully complete a breather membrane seal and further reduce the air-leakage of the construction, use this tape in conjunction with **Novia Breather Membrane Lap Tape**.

An example illustration of how the two tapes can be used in conjunction is shown below:

### General information

Roll size	50 mm x 50 m
Release paper	Silicone coated brown paper
Carrier	Polyester scrim
Adhesive	Acrylic dispersion

### Technical data\*

Roll Weight	0.85	kg
Thickness (without liner)	0.22-0.24	mm
Peel adhesion	≥ 30	N/25mm
Shear adhesion	100	g/625mm <sup>2</sup>
Processing temperature	-10	°C
Temperature resistance	-30 to +100	°C
Tack	Excellent	

\*All data based on average values
